

### Our Staff and Partners

Our staff offers years of experience in supporting clients' business technology needs. Through many years of 'being in the business' we have an extensive portfolio of partners with various aspects of technology experience. Let us bring the right team together to help grow your business.

### Technology Solutions

At Ansay Consulting we will work hard to help you realize the phrase 'technology made easy'. We understand the importance of implementing and utilizing technology in today's changing and sometimes difficult business market.

From the early stages of your setting up business (network cabling, website development, acquiring and setting up your new laptops and Blackberrys) to keeping up with growth (securing your growing data, setting up wireless to your new building after you outgrow your old one) let Ansay Consulting guide you.

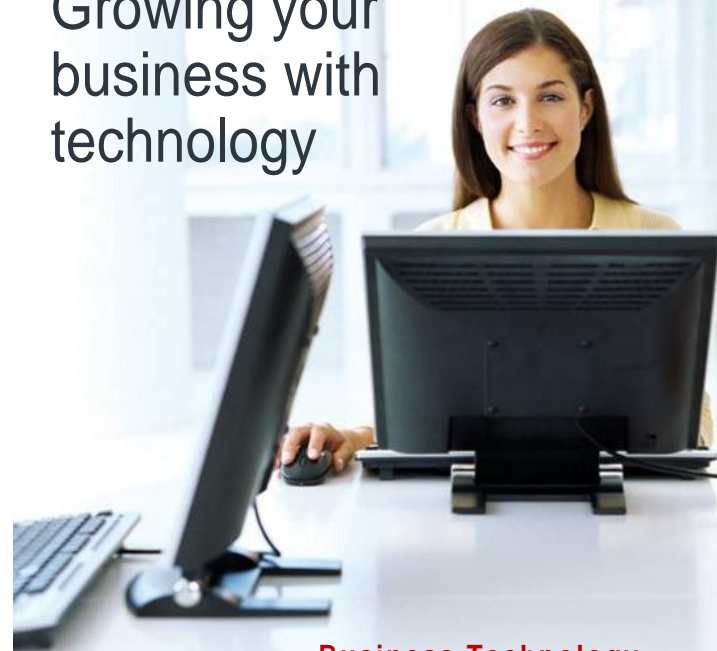

### Printer Consumables

**Get Printing Consumables before you need it!**  
Visit our online web store for all your toner supply needs. We can evaluate your entire office printing toner requirements and customize a convenient consumable management solution for your company.
